Engler High Speed Veterinary Dental Air Unit

Engler Drill-Aire Plus High Speed Veterinary Dental Air Unit

Engler Engineering Corporation is pleased to introduce the Drill-Aire High Speed Veterinary Dental Air Unit. We have incorporated a state of the art unit with an affordable option for high-speed drilling and low speed polishing.

The high speed handpiece is used for drilling, cutting, sectioning, and many other procedures. The low speed is used for polishing to complete the dental prophylaxis.

The **Drill-Aire Plus** High Speed Veterinary Dental Air Unit comes equipped with:

AIR HANDPIECES

- 360,000 RPM variable high speed handpiece	- Complete Prophy starter kit
- Up to 20,000 RPM low speed handpiece	- Prophy angle for snap on rubber Cups

3-WAY AIR WATER SYRINGE

Allows the operator the ability to rinse the operative site with a stream of water or mist or dry / blow debris with a stream of air.

FOOT PEDAL CONTROL

The foot switch is a durable chrome-plated pedal. By pressing harder on the footswitch it will deliver more power to the high speed handpiece controlling the speed easily.
