Sonus V Ultrasonic Dental Scaler

SONUS V™ ULTRASONIC DENTAL SCALER

Our new phase lock loop (modular microchip technology) places POWER, EFFICIENCY and SPEED at your fingertips.

You can remove cement and plastic flash with ease, perform curettage, deep scaling of heavy calculus and stains, effortlessly complete the prophylaxis treatment with reduced chair time.

The ENGLER tips - quality proven instruments recognized throughout the Dental world, are available now in 9 (nine) configurations. The surgical stainless steel heat treated tips are true flow through hollow tips, effectively cooling the operative site and flushing away debris. Recommended sterilization is Steam autoclave and Chemiclave.

Sonus V comes equipped with:

- Scaler Handpiece
- Stack (Transducer) inserted in the Handpiece
- 4 Assorted Tips
- Tip Wrench
- Waterline with inline water filter and male quick disconnect attached
- Foot control
- Instruction Manual

Optionally available:

Water hookup options available (one is required): water bottle, saddle valve or faucet diverter all with female quick disconnect.
